

## SCIENTIFIC R&D PRACTICE AREA

At the heart of every facet within the Life Sciences industry comes the space where it all begins; the Laboratory. With a global network of over 10,000 experts and key opinion leaders in the realm of scientific laboratory operations spanning areas of **oncology, immunology, antivirals, CNS, inflammation, autoimmune disorders, endocrinology, cardiovascular, rare orphan diseases, and gene therapies**, Brio has become the trusted partner in identifying the industry's most sought-after talent performing at the bench of every molecule's humble beginnings.

Our Executive Recruiters help build teams within **Gene Therapy, Pharmaceutical, Biotech, Medical Device, Diagnostics, and Clinical Research Outsourcing organizations** all of which have contributed to the betterment of patient populations with unmet medical needs. While there are many who claim to be masters in this segment, our up-to-date industry insights allow us to understand the complexities of skills, the language of science, the technologies of today and the regulatory trends of tomorrow.

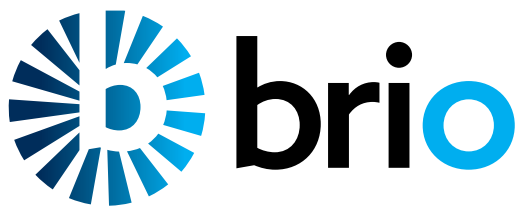

Whether you're **looking for a scientific position** or **need to recruit talented professionals**, you can rely on Brio to meet your needs. We will partner with clients to assess their specific needs and pair those needs with talented scientific professionals.

### Brio provides consulting and direct hire Scientific staffing solutions focused in the following areas:

- Pre-clinical Research
- Cell Culture
- Protein Biochemistry
- Project Management
- Assay Development
- GMP Manufacturing
- Analytical Chemistry
- Molecular Biology
- PK/PD
- Formulations
- Process Development
- Laboratory Management
- Quality Control
- Medicinal Chemistry
- Microbiology
- Documentation
- Bioanalytical Chemistry

### Snapshot of Completed Searches:

- Senior VP Manufacturing
- VP Laboratory Operations
- VP Immunology Research
- VP Translational Medicine
- Scientific Director Bioanalytical Sciences
- Director Laboratory Operations
- Director Virology Labs
- Director Assay Development
- Lab Manager
- Chemists
- Biologists
- Microbiologists
- Flow Cytometry Scientists
- Principal Scientists
- Senior Scientists
- Assay Development Scientists
- Clinical Laboratory Scientists
- Bioanalytical Scientists
- Principal Process Chemists
- Research Associate
- MSAT Scientists
- Process Development Scientists
- R&D Lab Technicians
- Senior Validation Engineers

# Scientific R&D

## ABOUT US

**Brio Resource Group provides strategic resourcing solutions to the Life Science industries.**

We are trusted partners to **Oncology, Hematology, Immunology, Antiviral, CNS, Inflammation, Autoimmune Disorders, Endocrinology, Cardiovascular, Rare Orphan Diseases, Diagnostics,** and **Gene Therapies,** delivering the most qualified Life Sciences resourcing solutions in the market today.

**We are staffing pros with a passion for the science and art of recruiting introducing only the best talent to preeminent companies.**

Our experienced delivery team is well versed in the Life Sciences industry and evolving market trends for the life changing therapies our clients are developing.

**We partner with emerging companies hungry for the top 5% of talent.**

Our reputation is well known as a "go-to" resource for hard-to-find Life Sciences top producers in today's war for talent. We deliver the elusive "A" level talent through our range of staffing options built on speed, accuracy and retention.

### Key Performance Indicators

- > 1:1 Submission to Interview Ratio.
- > Fill Rates and Retention Rates both exceeding 92%.
